Alien American

[Alessandro Mercuri](#) |

Alien American is neither a fake documentary nor a real fiction. It is the portrait of Basia, a Polish-American woman living in Los Angeles, claiming to be an Alien in her past life. From the discoveries of Hernan Cortes to the moon landing, this film investigates the universe of belief and simulation.

Alessandro Mercuri at IFFR

Raised in the French countryside among ponies, donkeys and unicorns, Alessandro Mercuri lives in LA where he makes things called films. Sometimes, when it's full moon, he craves to see advertising messages projected on its surface.
